# INTRODUCING THE WORLD'S FIRST ULTRASOUND ACTION TOOTHBRUSH

*Latest technology achieves a new level  
of clean and white within  
the first minute of brushing*

The New The Ultreo Ultrasound is the only toothbrush to utilize ultrasound waveguide technology alongside precisely tuned sonic bristle action for the most complete home tooth cleaning system you will find. The sonic bristles create bubbles that pulsate at an exact ultrasonic frequency for optimal plaque removal—95% of hard-to-reach plaque is removed within the first minute of brushing. The Ultreo has also been clinically proven to remove stains at the gumline after 14 days of use. Set includes one ultrasound brush head, ultra-compact charging base, waveguide protector, travel caddy, owner's manual, and 2-year warranty.

Independent research studies have proven that:

- Ultrasound waveguide technology in combination with precisely tuned sonic bristle action is significantly more effective at removing bacteria
- In the first minute of brushing, Ultreo removes up to 95% of hard-to-reach plaque
- Ultreo is effective at removing coffee, tea, and other extrinsic stains for naturally whiter teeth in just 14 days

**19599** Ultreo Ultrasound Toothbrush (1¼" dia. x 9½"H) **\$169**

**19634** Additional Brush Head **\$22.50**

Please specify Orange (featured), Green, or White brush head.

Ultrasound waveguide to channel ultrasound energy

Sonic bristles with power tip

Easy-clean, snap-on brush head; display illuminates when time to replace

Brushing interval signal

Auto shut-off 2-minute timer with beeping every 30 seconds, reminding user to reposition within mouth

Programmable ultrasound brush head replacement indicator

Ultrasound Brush Head

Battery level indicator; lasts up to 2 weeks when fully charged
